

# The Book of Life program symbolizes the true concept of L'Dor V'Dor, passing on traditions from one generation to the next.

The inscriptions in the Book of Life detail the personal thoughts, life experiences and the philanthropic vision that inspired the donor to create a legacy plan.

Individuals or families sign the Book of Life when they promise a legacy gift or establish an endowment of any amount for one or more Jewish organizations, synagogues, or day schools.

In addition, legacy donors are invited to record their story as part of our Book of Life video collection.

These gifts help ensure the future of our Jewish community locally, nationally, in Israel and worldwide.

The statements, along with photos of the donor or family, are kept on permanent display and online at the Jewish Community Foundation.

Thank you to our  
recent Book of Life video  
participants!
