

START-UP NATION MEETS SOCIAL INNOVATION

Community Trip to Israel

April
20–26,
2020

Coined "**Start-Up Nation**" more than a decade ago, Israel has grown to be one of the world's most exciting destinations for **innovative social solutions**.

Thousands of Israeli start-ups, established companies, incubators, and nonprofits are dedicated to living their **Jewish values** and solving the world's most pressing social challenges. Israel has become a magnet for investors and philanthropists looking to build and scale solutions to global crises in water, poverty, hunger, health, energy, and the environment.

JOIN US and meet inspiring change-makers, prominent CEOs, social entrepreneurs, investors and policymakers. Explore the factories, social enterprises, incubators, and research facilities that are leaders in building investable companies and financially sustainable solutions to the world's most urgent problems.

In the shadow of the Old City, we will witness the dichotomy of cutting-edge social innovation juxtaposed to ancient Jerusalem. **We'll visit Tel Aviv** to learn how technology and social change combine to benefit people, planet and profit. And we'll see how the Start-Up Nation culture in the **South of Israel** is making the desert bloom with technological advances that address both regional and global challenges.
